“ My loving grandmother... Mommy to me you made that clear don't call me Grandma you would say. I never seen you cry except for when I brought life into the world and you witnessed it and those were tears of joy. You were so strong all during your sickness. And no matter how you felt you always said you were doing ok. Your constant jokes and laughter lives in my memory forever. You were who you were and that was that OK!!!! (In your voice) You supported me in all I did and made sure to tell me you were proud of me. I will miss you my girl and I know your prayers carried me a long way.. I won't tolerate anything less than I need to like you taught me. Watch over me and know you made me strong and I have two strong girls that will continue your legacy!!!

Love you forever

“ *My condolences and deepest sympathy got out to Edwina and the entire family during the loss of her mother and my dear cousin, Charlene. I will cherish the memories of the phone calls and my visits to her apartment where we would sit around and talk about the old days and the love our family shared for everyone. I will miss her smile and fun loving personality. My prayers and continued support are sent to the family during this difficult time.*

*My Deepest Sympathy,
