“ That year when i saw him the 1rst time was terrible ;
I lost my pregnancy , the doctor told me i wont be able to get babies
no more. that same yearn , i got a multiple sclerosis. My husband
cheated on me and gave me a HIV , then i decide to pray and asked
God to give me a little something to compfort me in that struggle .
Then by pure chance i saw on the net that Charles was performing
here in France in my town few days later. OOH i ve been there ...
the show and the hug he gaves me ,really was an answer to my
prays. His story helped me to realise how much im lucky , because
the people i love the most are fine.
he was a Holly man with a power very special : he knew how to talk
to people s soul.
I know one day i ll go on his grave to say thank you.
There s a problem , i dont know where i could find his grave...
My name is Sandy and here is my mail adress : sandy.smith@outlo
