“ I miss him so. I remember when he told me his kidneys had failed and that he'd be receiving dialysis treatment. He asked me "What kind of life is this going to be with me having to get dialysis all the time?" I told him it was his life and that it was in Gods hands. He agreed with me and it seemed like he was soothed to hear that. I love him and i always will. He was a friend of mine and the only thing i regret is not staying in touch and not knowing of his passing until after he was buried. R.I.P baby. Now you're in the best hands and i know you're happy and free of pain now. God bless the Raley family.

“ My deepest sympathy goes out to Jamarian's family. I helped to take care of him while he was on dialysis. I along with other staff members and patients were shocked to hear of his passing. The staff and patients adored and loved him. I had recently returned back to work in 2008 from having cancer and ran into Jamarian at the Shelby clinic. He hugged me and told me that he was glad to see me. He wasn't one who smile alot, but when he did, it was radiant. His smile and sincerity was the best medicine that I could have asked for that day. I will truely miss seeing him. My deepest and heartfelt sympathy to his family. Robin Ofsonka

“ Dear Raley family,  
I was so sorry to learn of Jamarian's passing.  
Please know that all of us who knew Jamarian at DCI are keeping your family in our thoughts and prayers.

“ Miss Vickie Raley, Mrs. Betty Robinson, Jamarian's family and friends:

*I am sharing your sorrow and wish to offer sympathy on behalf of Sickle Cell Syndrome Program.*

*Jamarian sought to get his life in order with his Creator knowing this day would come. This in itself is a reason to rejoice at the "going out" as one hears older people say.*

*I have known him since he was brought to the Association at 5 weeks old in a pamper and screaming at the top of his lungs when Claude Morris pricked his little heel for a blood sample.*

*I will never forget the excitement in his eyes when he got in the car to attend sickle cell camp in Southern Pines. We will all miss him. Again, I say rejoice knowing he had the sense to submit his life to his Heavenly Creator before He came to claim his soul and released him from that flesh that we knew as Jamarian.*

*The minister he requested will soften the hearts and stir the minds of those attending the service, whether friends or family, to cause them to think about their eternal home with God and give their lives over to Christ's control.*

*May you and your family and friends be blessed and be a blessing to others. Thank you for allowing me to have a tiny part of Jamarian's life to remember forever.*

*James Rogers, Educator/Counselor Sickle Cell Syndrome Program*
